## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 2-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Rochelle et al #3,597,930. Rochelle discloses attaching of a reinforcing metal layer 44 and injecting an intermediate layer. Rochelle also discloses shaped parts 41, 42, 43 or a series of plates 41, 42 that are attached in situ. The plates 41, 42 would also be read as complete rings.

### ***Response to Arguments***

3. Applicant's arguments filed 2/12/07 have been fully considered but they are not persuasive. As currently amended, Rochelle would meet the limitations of "comprises shaped parts that are attached in situ" as in claim 5; and "comprises a series of plates that are attached in situ" as in claim 13.

### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3673

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
